Hello Huaxia Students and Parents,

First, we have school open for this weekend, 10/23. I guess you have a relaxed week. But please catch

up on your homework.

There are three events happen at Marlboro High School on this Saturday. Eric Hou's bone marrow scanning team will be here. Please show your support and do the scanning test. PTAs on duty, please support the event!

Vincent Accettola will come to our school and gives a campaign talk about his race for Board of Education of Freehold region at the auditory. Please come and join him. You can ask as many questions as you want. The time is about 1:30pm. Please vote for him. His name is on the ballot.

The third one is that Marlboro High School foot team will have a game. The guest team will use the back door and the cafeteria. So we cannot use it. And parking lot will be full. Please be patient when looking for your parking spots.

A new math club for elementary school students will be open this weekend at 3:30pm at Room A115. The teachers are high school students. Please show up if you are interested.

Joanne Liu-Rudel is still campaigning for her Board of Education of Marlboro. We have tons of flyers. If you can help to distribute them, please stop by at the PTA desk. Vote for Joanne. Her name is not on the ballot. You have to write it. Please be very careful when writing her name. if it's not clear, it's not counted.

Dr. Yu's has opened a training class for US Olympia Biology competition of 2015. It may be one of keys to open the Ivy League doors. For those who are interested, please check the attached brochure.

That's it for this week.

See you at school.
